<u>**Version History**</u>

This Anti Frog game has two versions. The current game version is 2.0.0

Past Versions

 -1.0.0 (July 10, 2012)

I. Game Overview

This is a simple avoid the obstacles game. The player must avoid the potholes while trying to run over the frogs. The game ends when the player hits the potholes 7 times.

II. Controls

The controls for this game are simple. Moving your mouse over the screen will move the players avatar(car) up and down the y axis.

III. Character

The user plays as a average person driving red car. Your driving down the street like its any other day...

IV. Enemies

The enemies in this game are the potholes in the road. The player must avoid them as they damage the car.

V. Scoring

The player gets 'points' by running over the frogs that are crossing the street. The more frogs the player runs over the more points are rewarded. The green frogs are worth 50 points and the rarer red frogs are worth 500 points.

VI. Sound Files

pothole.ogg, engine.ogg, squish.ogg
